

Covid-19 SafeOccupancy Tracker-System

Enforcing social distancing

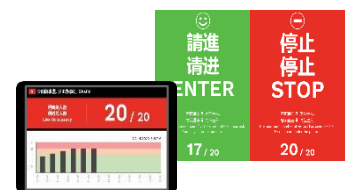

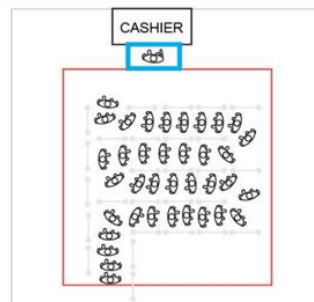

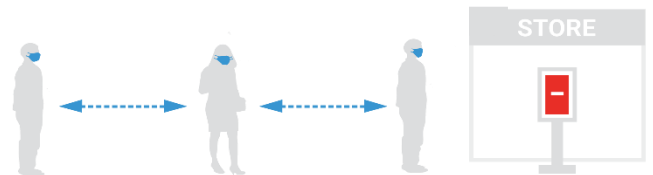

As the Covid-19 is affecting the entire world and how we run our business today,, governments have imposed a **social distancing regulation** to contain the spread of the coronavirus.

Many businesses resort to assigning security guards to control the customer traffic at their entrances. Such manual counting is costly, inaccurate and provide no hard evidence for compliance.

SafeOccupancy™ Tracker System, an innovation solutions by Footfallcam that will help to ensure that your business is safe and compliant to government’s social distancing regulation,

BENEFITS

- **Live occupancy tracking** at their premises for crowd control with 95% accuracy
- On-site display at their entrances to **control incoming traffic**
- **Alerting staff** when the occupancy limit is breached
- **Website widget** to influence customer’s visiting time
- **Queue Counting** and Controlling

Tracking consumers in a serpentine queue.
